

Office of the Engineer-In-Chief (Admin Wing),
I & CAD Department, Errum Manzil, Telangana, Hyderabad.

Circular Memo No: - RC/ENC/EE(Legal)/

Dated: 19-09-2020

Sub: - Geo Tagging of the Minor Irrigation tanks and Check dams-regarding.

A mobile application was developed by IIT-H for geo tagging all the water bodies under Minor Irrigation. Around 43043 tanks were already geo tagged and approved till date. Among them, few of tanks were not linked with the UID (16 digit unique code for the tank generated based on the district, assembly, mandal, village, habitation and type of tank). For such tanks which are not linked with UID, the concerned AE/AEE is requested to link up the Geo ID with the UID in LMMS Website.

As per the directions from the Government and in order to finalize the number of tanks in the state, it is requested to Geotag all the tanks on the ground in the respective jurisdictions for which UIDs are already there and also raise proposals for deletion of tanks if any duplication is observed. It is further instructed that no further modifications or deletions would be entertained after completion of geo-tagging.

Mobile Application can be downloaded from the website: <https://lakes.telangana.gov.in/lmms/>

Queries if any can be posted through Feedback service which is available in the website: <https://lakes.telangana.gov.in/lmms/>

Yours faithfully
